

Training school on

Fine-analysis tools for nanocharacterization

The 1st **Nffa.eu Pilot** training school aims at promoting the use of instruments and the knowledge of techniques available within the consortium

INL, Braga - Portugal
September 27-28th 2022

Interested in
**acquiring knowledge
and hands-on experience?**

Our program includes:

Lectures by experts
from across Europe

Visits to dedicated
INL facilities furnished with
TEM, SEM, FIB, and XPS
instruments.

All lessons will be held in **English**
Student travel support available
Application deadline: **22.07.2022**

TOPICS:

Electron Microscopy

**Electron and X-ray
Spectroscopy**

FIB

**Synchrotron-based
techniques**

**Ultrafast optical
spectroscopy**

**Nanoparticle
characterization**
